INTRODUCTION

1. These Policies were originally adopted by the Committee of Management of U3A Kyneton, and minuted as such, on 12th October 2020. They are subsequently reviewed on a regular basis and updated accordingly.
2. They are to be reviewed on an annual basis and approved by the Committee of Management of U3A Kyneton not later than the 31st December of each year.
3. They incorporate, in one document, all the previous individual policies with the addition of some new policies.
4. The following superior documents are listed in order of precedence, if there is any conflict between these policies and those documents, the superior documents take precedence in order:
 - **Legislation:**
 - **Freedom of Information Act 1982 (Vic).**
 - **Associations Incorporation Reform Act 2012 (Vic).**
 - **Privacy and Data Protection Act 2014 (Vic).**
 - **Chief Health Officers Directives.**
 - **The Model Rules (Reform Act), available on the U3A Kyneton web site.**
 - **Contains the Grievance Policy which is why there is no Grievance Policy in these policies as it would be only repeating a superior document.**
 - **U3A Kyneton's Security Practices and Procedures available from the U3A Kyneton Technology Officer.**
5. **Policy**- a high level document that is subservient only to the Constitution or Rules that provides broad details and advice on how the organisation will function and how specific matters will be dealt with e.g., Refund Policy, T&Cs etc.
6. **Plan** - a medium level document, subservient to policies, that is a detailed instruction on how to deal with a particular situation, it complies with approved Policies and refers to appropriate Policies where applicable e.g., a COVID Safe Plan which has advice amongst other things on how to deal with a COVID incident.
7. **Delegation of Authority** - is the process by which the Committee transfers responsibility for a task or accountability to a single member or subcommittee. This document lists those delegations.
8. Some policies may need to be amended at very short notice e.g., COVID changes, these will be approved by the President in consultation with the Secretary and Technology Officer.
9. Any inconsistencies in the documentation should be brought to the attention of the Technology Officer at the first available opportunity.

02 – SEXUAL HARASSMENT

Introduction

1. U3A Kyneton recognises it is the right of every member, volunteer, and employee to attend classes, activities, or functions, and / or to perform their duties as a volunteer or employee within a U3A Kyneton environment without being subjected to any form of sexual harassment.

Purpose

2. The purpose of this document is to set down U3A Kyneton's policy on sexual harassment and the process that will be followed should any complaint of sexual harassment be received.

Policy

3. Sexual harassment can be experienced by both men and women. Sexual harassment refers to any unwelcome sexual advance or request for sexual favours, or other unwelcome conduct of a sexual nature which makes a person feel offended, humiliated, or intimidated, and where that reaction is reasonable in the circumstances. Lack of intent is no defence in sexual harassment cases. Examples of sexual harassment include, but are not limited to:
 - Intrusive enquiries into a person's private life
 - Reference to their physical appearance or sexuality
 - Unwanted brushing against another person's body, body touching or physically molesting a person.
 - Standing too close
 - Obscene, suggestive, or offensive communications, including electronic mail
 - Pornographic or offensive posters, handouts, or screensavers
 - Sexual jokes or anecdotes
 - Leering or staring
 - Unwanted sexual compliments or excessive flirting
4. U3A Kyneton will not tolerate sexual harassment. Responsibility lies with every member, volunteer, or employee to ensure that sexual harassment does not occur. No member, volunteer or employee should be subject to any form of sexual harassment.
5. No member, volunteer or employee will be treated unfairly because of lodging a complaint. Disciplinary action may be taken against anyone who victimises or retaliates against a person who has complained of sexual harassment or against any employee or volunteer who has been alleged to be a harasser.
6. All employees and volunteers have the right to seek assistance from the Victorian Equal Opportunity and Human Rights Commission in the resolution of a sexual harassment incident.
7. The principles set out in this policy are intended to apply to any U3A-related context, including classes, social functions, meetings, conferences, holiday trips and U3A workplaces.
8. A breach of this policy will result in disciplinary action.
9. Some forms of sexual harassment, such as sexual assault, stalking and indecent exposure, may constitute criminal conduct. While U3A Kyneton is committed to handling most sexual harassment complaints at the local level, more extreme forms of harassment are not suited to internal resolution and should be handled by the criminal justice system. It is not the duty of U3A Kyneton to report such matters to the police on behalf of the complainant.

Procedures

10. U3A Kyneton strongly encourages any member, volunteer or employee who feels sexually harassed to take immediate action. Where circumstances permit, the aggrieved person should make it clear that such behaviour is unwelcome and offensive. Alternatively, or in addition, they may follow the procedures for reporting the behaviour.
11. A complaint of sexual harassment may be made to any member of U3A Kyneton's Committee of Management. The Committee Member will inform the President immediately.
12. We will handle a complaint of sexual harassment promptly, seriously, and sensitively. There will be no presumption of guilt and no finding will be made until an investigation has been completed.
13. A Case Manager will be appointed by the Committee of Management. The Case Manager will contact the complainant to provide support; explain his / her rights and responsibilities under this policy; ascertain the details of the complaint and the complainant's expectations of the complainant process.
14. The complainant has the right to influence how the complaint is handled; have support or representation throughout the process; discontinue a complaint at any stage of the process.
15. The alleged harasser has the right to be made aware of the allegations; have support or representation throughout the process; respond fully to any formal allegation made.
16. Where agreed with the complainant, informal intervention will be initiated by the Case Manager, using conciliation and/or mediation techniques. The informal intervention will be complete when the parties agree on actions or outcomes to be implemented. When agreement is not reached, a formal intervention will be initiated, and the Committee of Management will appoint a person ('the Investigator') to investigate the complaint.
17. The Investigator will:
 - Interview the complainant to ascertain the facts and what they expect because of the complaint
 - Interview the respondent to ascertain their response / defence
 - Identify and interview other persons who may be able to assist
 - Examine any relevant documents
 - Determine relevant previous behaviours or issues
18. The Investigator will reach a finding, assemble all the evidence gathered and provide these to the Case Manager. The assembled evidence may include, but is not limited to:
 - Records of interviews conducted
 - Supporting evidence provided by a doctor, counsellor, family member, and so on
 - Relevant reports and personnel records, where the respondent is an employee
 - Complaints / information provided by other employers or persons about the respondent's behaviour
 - Records kept by the complainant
 - Information on whether the evidence appears credible and consistent
19. The Case Manager will submit the Investigator's findings and evidence to the Committee of Management and recommended a course of action to follow. Recommended actions will be influenced by:
 - The wishes of the complainant
 - The severity and frequency of the harassment
 - The weight of the evidence

- The level of contrition
 - Whether there have been any prior incidents or warnings
20. Possible disciplinary actions may include but are not limited to:
- Formal apology and undertaking that the behaviour will cease
 - Counselling

 - Cancellation of membership
 - Removal from a volunteer or leadership role
 - Dismissal from paid employment.
21. Where there is insufficient evidence to determine whether the harassment occurred, the Committee of Management will remind those involved of expected standards of conduct and monitor the situation.
22. Any questions about this Sexual Harassment Policy should be referred to the Secretary.

Responsibilities

23. U3A Kyneton's Committee of Management is responsible for:
- Developing, adopting, implementing, and publishing this policy
 - Ensuring that all members, volunteers, and employees are aware of this policy and of their obligations in relation to contributing to a U3A environment that discourages harassment and victimisation and set an example by their own behaviour
 - Treating all complaints seriously and confidentially
 - Taking immediate and appropriate corrective action if they become aware of any offensive action
 - Investigating complaints about sexual harassment
 - Monitoring and revising this policy as and when the need arises.
24. A Committee Member who receives a complaint of sexual harassment is responsible for referring the matter to the President immediately.

 - Not to use the registered mobile or fixed device as the sole repository for U3A Kyneton's information.
 - To make every reasonable effort to ensure that U3A Kyneton's information is not compromised using mobile equipment in a public place. Screens displaying confidential or critical information should not be seen by unauthorised persons and all registered devices should be password protected.
 - To maintain the device with current operating software and current security software.
 - Not to share the device with other individuals to protect the business data access through the device.

 - Require the user to remove any U3A Kyneton stored data.
 - Has the right to deregister the device for business use and remove access to business systems at U3A Kyneton's discretion.

Keeping Mobile Devices Secure

15. The following should be observed when handling mobile computing devices:
- Mobile devices must never be left unattended in a public place. Wherever possible they should be kept on the person or securely locked away, and system locked when not in use.
 - Cable locking devices should also be considered for use with laptop computers in public places, such as in a seminar or conference, even when the laptop is attended.
 - Mobile devices must be carried as hand luggage when travelling by aircraft.
 - Ensure all portable devices use either a strong unique passphrase, password, fingerprint, PIN, facial identification, or multi-factor authentication where available.
 - Remind people to lock, or lock away, their portable devices when not in use, even if it is for a short period of time.
 - Be aware of who can overhear phone conversations.
 - Do not access confidential information if it can be observed by others.

- Do not use public Wi-Fi hotspots. Use secure home or U3A Kyneton Wi-Fi (if available), private mobile data hotspots or private mobile data instead.
- Keep device software, the operating system, and anti-virus systems up to date.
- Enable remote tracking, locking, or wiping where applicable.
- Back up the device to an external hard drive or the cloud regularly.
- U3A Kyneton data must be backed up using the U3A Kyneton approved backup drive.
- Only download legitimate software and applications.
- Use screen lock.
- Turn Bluetooth off when it is not in use.

Hard Drives, USBs, and Memory Cards

16. U3A Kyneton recommends that data be backed up into a cloud-based service like OneDrive or SharePoint because hard drives, U3Bs and memory cards can fail.
17. If using a physical device as the primary back up:
 - Routinely scan devices for malware with an antivirus program.
 - Block access to physical ports.
 - Encrypt data.
 - Use password protection.
 - Always keep a close eye on your device wherever you are and whatever you are doing.

Exemptions

18. This policy is mandatory unless the Technology Officer grants an exemption. Any requests for exemptions from any of these directives should be referred to the Technology Officer.

Breach of this Policy

19. Any breach of this policy will be referred to the Technology Officer to review the breach and determine adequate consequences be recommended to the Committee. These can include termination of access or volunteering.

15 – PRIVACY OFFICER ROLES

Purpose of the Policy

1. The Privacy Officer is part of the responsibilities of U3A Kyneton’s Technology Officer. They are the first point of contact within the organisation for all matters related to privacy, data security and personal information. They play an important role in promoting an awareness of privacy within the organisation and ensuring that the organisation upholds its privacy and data security obligations.

Key responsibilities

2. The Privacy Officer assists U3A Kyneton in complying with the Privacy and Data Protection Act 2014 (Vic) (PDP Act), the associated Information Privacy Principles (IPPs) and our obligations to our government funding agencies through U3A’s Network Services Agreements. The Privacy Officer is responsible for maintenance of U3A Kyneton’s Security, Practices and Procedures document and updating it annually.
3. This position is also to respond to privacy enquiries and complaints from employees or volunteers within the organisation, and members of the public.

Other responsibilities

4. Other responsibilities include:
 - Developing policies around the management of personal information and data security.

 - Recommending strategies to U3A Kyneton Committee.
 - Managing the organisation’s response to data breaches.

Reporting

7. The role reports to the U3A Kyneton Committee.

16 – DEBIT CARD USE

Background and Purpose

1. While the U3A Kyneton operating account has cheque, BPay and Electronic Funds Transfer (EFT) facilities, the requirement for two signatures precludes direct debit at the point of sale via EFTPOS terminal or online. To minimise the use of members' personal funds for direct debit, a U3A Kyneton debit card account has been opened.
2. The debit card account has linked debit card/s. One debit card is issued to the Treasurer and a backup debit card is issued to the President.
3. Funds transfer from the debit card account requires only one authorization, funds transfer to the debit card account will require two authorizations are in place before funds are expended by the debit card account.

Policy

4. Payments from the debit card account are made only where neither EFT nor BPay is available. Funds transfer into the debit card account requires two prior authorizations from: President, Vice-President, Treasurer and/or Secretary. Subscriptions plans and other periodic debits must be in the name of U3A Kyneton, not individuals.
5. The 4-digit Personal Identification Number (PIN) is managed by the debit card holder who is the sole user of the debit card. No others are allowed direct access to the debit card, the card number, expiry date, 3-digit Card Verification Code (CVC) or PIN.
6. In the absence of the Treasurer, the President or his or her delegate may authorize payments from the debit card account. The committee may authorize the Treasurer to expend funds up to a limit of \$1,000 without individual authorization of each item.

Procedure

7. The payment initiator supplies the relevant documents to the Treasurer.
8. Following approval, funds are transferred from the operating account to the debit card account. Payment is then made from the debit card account.
9. The Treasurer reconciles the debit card account statement against receipt/s and documentation held to support the payments made.
10. Before the debit card expiry date, the card holder organises a new card.

17 – UNSOLICITED PROPOSALS

Background

1. U3A Kyneton frequently receives requests from external organisations for support or participation in research and requests to ‘partner’ in project work. The proposals usually require access to U3A Kyneton members in some form or other, either directly via email, by newsletters or the website. U3A Kyneton also receives requests to distribute material and information to members.
2. The role and purpose of U3A Kyneton is not to provide a conduit to members for external organisations seeking to undertake projects or research involving members. However, U3A Kyneton acknowledges that certain projects or proposals will have benefits for the U3A Kyneton, U3A movement and for senior Victorians; that justify support or involvement from the U3A Kyneton in certain circumstances. This policy provides guidelines for dealing with such requests and sets out the processes to be followed.

General Principles

3. Requests for support or involvement in research and other projects will only be considered where:
 - The proposal aligns with the values and priorities of U3A Kyneton and the U3A movement in general.
 - There are demonstrable potential benefits that will flow to some or all the following:
 - U3A Kyneton.
 - U3A Network Victoria.
 - The U3A movement.
 - The older adult population.
 - The proposal represents an efficient use of U3A Kyneton resources and does not impose undue workloads or resource commitments or conflict with other existing commitments.
 - Any research proposals must demonstrate a clear ethics framework as part of the research design.
4. Requests for distribution of information or other materials to members will only be considered where the request complies with the criteria outlined above and where the benefits from distribution of the material are clearly definable and achievable and are in the members’ interests.

Process for Requests

5. Proposals from organisations requesting support or involvement in research or other projects or requesting that U3A Kyneton material to members or U3As on their behalf, are to include the following information.
 - Name of the organisation and role of the organisation.
 - Contact details.
 - Nature of the proposed project / research / information distribution proposal:
 - What are the purposes of the proposal?
 - Provide details of the design of the project / research.
 - What are the timeframes of the project / research? For information distribution requests, detail the nature of the material to be circulated, provide copies of the material.
 - Describe how the proposal aligns with the values and priorities of the U3A movement and of U3A Kyneton.

- Define the benefits of this proposal for:
 - U3A Kyneton.
 - U3A Network Victoria.
 - The U3A movement.
 - The older adult population.
 - What support or resources would be required from U3A Kyneton during this project?
 - Ethics approval – for research projects; provide confirmation that the proposal has received appropriate ethics approval.
6. Request for support in distribution of information to members of U3A Kyneton:
- Name of the organisation and role of the organisation.
 - Contact details.
 - Outline the nature of the material to be circulated to Member U3As and provide copies of the material.
 - What is the rationale for distribution of the material to U3As?
 - Describe how the material to be distributed aligns with the values and priorities of the U3A movement and of U3A Kyneton.
 - Define the benefits of this material for:
 - U3A Kyneton.
 - The U3A Movement.
 - The older adult population.
 - What support or resources would be required from U3A Kyneton or the broader U3A movement?

Approval of Requests

7. The Privacy Officer has the sole responsibility, in the first instance, to reject or approve the application. Any disagreements are to be referred to the Committee. Requests refused should be directed to the Macedon Ranges Shire Council Healthy Ageing Engagement Team as a more appropriate avenue for support.

18 – ZOOM

Background and Purpose

1. U3A Kyneton holds multiple Zoom Pro licences that are shared among authorised Tutors and committee members.

Policy

2. The Technology Officer is responsible for managing and authorising the use of the U3A Kyneton's Zoom licence/s.

Procedure

3. Tutors/committee members wishing to book a Zoom session need to contact the Technology Officer with the date and time of the session. The Technology Officer will then schedule the session sending invitations to participants approximately 24 hours before the meeting.
4. Tutors must have a valid course registered in U-MAS to avail themselves to U3A Kyneton Zoom licence.
5. The Technology Officer is to keep a record of allocated sessions.
6. Recurring meetings using the same Zoom link are not allowed except with the approval of the Technology Officer.
7. The licence is not to be used for any other purpose other than the authorised session.

Guidelines

8. The following are guidelines for the conduct of Zoom meetings.
 - The meeting will be recorded. If you do not want to be recorded, turn off video stream. You can do this by clicking on the camera icon bottom left of your screen on a PC and top right of the screen for a Mac.
 - All participants will be muted upon commencement of the meeting. Please don't interrupt those speaking.
 - It is preferable to use the 'Chat Feature' to ask a question or raise your hand and keeping it raised to gain the attention of the Chair. (The chat host will keep a record of those who have raised their hand and the order in which they have.)
 - If you need to unmute yourself, press and hold the space bar down.
 - Please do not speak without acknowledgement from the Chair.
 - After each agenda item we will review the 'chat log' to ensure all queries have been answered. All participants can view the 'chat log' or you can raise your hand.
 - When a vote is called for by the Chair there will be two possible responses, raise your hand (so it is clearly visible on the screen) for the appropriate response:
 - Those for the motion
 - Those against the motion

19 – DATA RETENTION

Policy

2. The following are the retention times for documents:

The source was <https://www.homeaffairs.gov.au/about-us/our-portfolios/national-security/lawful-access-telecommunications/data-retention-obligations>

Data Retention Obligations

4. The Telecommunications (Interception and Access) Act 1979 requires telecommunications companies to retain a particular set of telecommunications data for at least 2 years.

 - Managing the organisation’s response to data breaches.

Reporting

8. The role reports to the U3A Kyneton Committee.

21 – NOTIFIABLE DATA BREACH (NDB)

Purpose of the Policy

1. The Privacy Act requires certain entities to notify individuals and the Commissioner about data breaches that are likely to cause serious harm.
2. The requirements of the NDB scheme are contained in Part IIIC of the Privacy Act and apply to breaches that occur on or after 22nd February 2018.

Key Points

3. Entities that have existing obligations under the Privacy Act to secure personal information must comply with the NDB scheme.
4. This includes Australian Government agencies, businesses and not-for profit organisations that have an annual turnover of more than AU\$3 million, private sector health service providers, credit reporting bodies, credit providers, entities that trade in personal information and tax file number (TFN) recipients.
5. Entities that have security obligations pursuant to the Privacy Act in relation to types of information only (for example, small businesses that are required to secure tax file number information) do not need to notify about data breaches that affect other types of information outside the scope of their obligations under the Privacy Act.

Notifiable Data Breaches

6. The NDB scheme in Part IIIC of the Privacy Act requires entities to notify affected individuals and the Privacy Commissioner of certain data breaches.
7. The NDB scheme requires entities to notify individuals and the Commissioner about eligible data breaches. An eligible data breach occurs when the following criteria are met:
 - There is unauthorised access to, or disclosure of personal information held by an entity (or information is lost in circumstances where unauthorised access or disclosure is likely to occur).
 - This is likely to result in serious harm to any of the individuals to whom the information relates.
 - The entity has been unable to prevent the likely risk of serious harm with remedial action.
8. Entities must also conduct an assessment if it is not clear if a suspected data breach meets these criteria. The assessment will determine whether the breach is an 'eligible data breach' that triggers notification obligations.
9. The primary purpose of the NDB scheme is to ensure individuals are notified if their personal information is involved in a data breach that is likely to result in serious harm. This has a practical function: once notified about a data breach, individuals can take steps to reduce their risk of harm. For example, an individual can change passwords to compromised online accounts, and be alert to identity fraud or scams. The NDB scheme also serves the broader purpose of enhancing entities' accountability for privacy protection. By demonstrating that entities are accountable for privacy, and that breaches of privacy are taken seriously, the NDB scheme works to build trust in personal information handling across industries.

What is a Data Breach?

10. A data breach occurs when personal information that an entity holds is subject to unauthorised access or disclosure or is lost.
11. Personal information is information about an identified individual, or an individual who is reasonably identifiable. Entities should be aware that information that is not about an individual on its own can become personal information when it is combined with other information, if this combination results in an individual becoming 'reasonably identifiable' as a result.
12. A data breach may be caused by malicious action (by an external or insider party), human error, or a failure in information handling or security systems.
13. Examples of data breaches include:
 - loss or theft of physical devices (such as laptops and storage devices) or paper records that contain personal information
 - unauthorised access to personal information by an employee
 - inadvertent disclosure of personal information due to 'human error', for example an email sent to the wrong person
 - Disclosure of an individual's personal information to a scammer, because of inadequate identity verification procedures.

Consequences

14. Data breaches can cause significant harm in multiple ways.
15. Individuals whose personal information is involved in a data breach may be at risk of serious harm, whether that is harm to their physical or mental well-being, financial loss, or damage to their reputation.
16. An entity can reduce the reputational impact of a data breach by effectively minimising the risk of harm to affected individuals, and by demonstrating accountability in their data breach response. This involves being transparent when a data breach, which is likely to cause serious harm to affected individuals, occurs. Transparency enables individuals to take steps to reduce their risk of harm. It also demonstrates that an entity takes their responsibility to protect personal information seriously, which is integral to building and maintaining trust in an entity's personal information handling capability.

Business Practices

17. Data Breaches at U3A Kyneton Inc. has business practice standards to reduce the risk of a data breach. These practices are contained within the policy documents available for office bearers, members, and volunteers on the web site u3akyneton.org.au.

22 – TUTORS

Purpose of the Policy

1. To define categories of Tutors, responsibilities, and payment requirements.
2. There are two types of tutors, Tutor Member and Tutor Leader. Tutor Members are full members of U3A Kyneton. Tutor Leaders provide courses on a voluntary basis but are not paying members of U3A Kyneton.

Definitions

3. **Tutor Members.** Are full members who also tutor a course in the current year a U-MAS data base requirement. They pay the membership subscription as determined by the AGM each year and have full voting rights.
4. **Tutor Leaders.** Are not members of U3A Kyneton and have no voting rights, they provide tutor services in a particular unique area and may have a commercial interest. They are not able to attend other U3A Kyneton courses, only their own course. They pay no fees and receive no privilege from U3A Kyneton.

Responsibilities

5. Tutors are responsible for their class attendees at all times. This is a significant responsibility and is not to be taken lightly.
6. A process of Dynamic Risk Assessment must be always undertaken regardless of the situation either indoors or outdoors:
7. The definition of a Dynamic Risk Assessment is:
 - “The continuous process of:
 - identifying hazards,
 - assessing risk,
 - taking action to eliminate or reduce risk,
 - monitoring and reviewing, in the prevailing circumstances.”
8. The main responsibility for dynamic risk assessment lies with the Tutor who must identify the hazards, assess the risks, then make professional judgements to use the available resources in such a way as to achieve an acceptable level of safety during activities.

Tutor Payments

9. Tutors are not to enrol in their own courses, to do so, if a charge was imposed would be liable for that fee and in addition reduce the number of possible enrollees by one.

Reporting

10. The roles report to the Course Coordinator.

23 – EMERGENCIES

Workplace Health and Safety

1. All of us at U3A Kyneton need to be consciously aware of any potential risk or threat to personal health and safety of our members. It is imperative that we understand and implement policies and practices in line with 'best practice'. Even seemingly simple things, like electrical extension cords running across the floor, may result in serious injury. Please be actively vigilant in setting up or altering arrangement of furniture and equipment.
 - [Occupational Health and Safety Act 2004](#)
2. A **safety assessment** must be conducted before the commencement of classes on each occasion that class is conducted. See appendix B

Emergencies

3. The Emergency Triple 0 Service (dial 000) should be contacted for any life-threatening medical emergency or for attendance of the fire service or police. When you dial the number, you will be asked to nominate which service you want, and you should then stay on the line until you are connected to the appropriate authority. You will then be questioned about the location the nature of the emergency and the nearest crossroad. Please ensure that you fill out an Accident/Incident Report, template is at A.
4. There is a free Smart phone application called **Emergency +** which is particularly useful: it gives your location (street address), Latitude and Longitude and allows you to call 000, SES 131 500 or Police 131 444. It is a government initiative and can be found at <https://emergencyapp.triplezero.gov.au/>.

In the Event of an Incident

5. An incident can be stressful for all those involved and therefore it is better to have formulated a plan, consider what would I do if? The following are some suggestions:
 - Take charge of the situation and make sure everyone knows who is in charge.
 - Follow DRSABCD (trained First Aiders understand this mnemonic).
 - Detail off a person to ring triple zero, don't do it yourself unless there is no alternative, do not delay, the triple zero operator may keep the caller engaged for some considerable time, most likely until Emergency Services arrive.
 - Get someone to look after the patient (if there is one), preferable a first aider but if not the best qualified person available even if it is just for reassurance – **never leave the patient unattended**.
 - Get someone to take notes of **times** of significant events and the patients' details, the more detail the better.
 - If Emergency Services have been called get someone to stand on the footpath (or other suitable location) and direct them to the most suitable access point, this can save considerable time.
 - Give people a job to do, keep them occupied and helpful or if not required move them away from the scene.
 - Remember you are responsible until have been relieved by a more suitably qualified person, just because an ambulance has arrived it may take them some time to set up or they may ask you to continue what you are currently doing. If someone is/has been reassuring a patient, they should continue in this role as they have already built up a rapport with them.

Injury or Accident

6. In the event of any injury or accident occurring on or about premises which are used for our classes, whether the person is a member of U3A Kyneton, please notify the Secretary and complete an Incident

Report Form at Appendix A so that details are recorded. First Aid kits are in the Red Brick Hall, make sure you know where they are located.

In Event of Fire

7. All doors to the building can be opened from the inside even when locked from the outside. Battery operated Exit Lights are installed at all exits and will illuminate in case of power failure.
8. Fire extinguishers are installed in the Hall. In the event of emergency, follow the site instructions and the direction of staff and Tutors. For other venues, please familiarise yourself with their emergency procedures. These will most likely be summarised on signs erected on the premises.

DRSABCD

D - Danger

To yourself first, then others, then the casualty

R - Response

Talk and Touch - ask them to open their eyes and/or squeeze your hands

S- Send for Help

Call for an Ambulance 000

A - Airway

Check that the airway is clear

B - Breathing

Look, Listen and Feel for 10 seconds to check if the casualty is breathing

If normal breathing, place them into the recovery position and monitor their condition constantly

C - CPR

With no visible signs of life, commence CPR at 30 chest compressions followed by two breaths

D - Defibrillator

Attach defibrillator (AED) as soon as possible and follow the prompts

Continue CPR until qualified personnel arrive or signs of life return.

What should you do?

Whether trained or untrained, some of us are afraid we will do the wrong thing and make the situation worse.

The worst thing to do is to do nothing.

24 – LOAN OF SMART DEVICES

Introduction

1. U3A Network has provided a grant to selected U3As to purchase a 'smart device' to loan to members on a 'try before you buy' basis.
2. U3A Kyneton has been successful in applying for this grant and have one device for loan to U3A members.
3. The device is an iPad 10.2 inch with Wi-Fi + Cellular with 128GB memory. In addition, a Telstra 5GB per month data plan has been provided to allow connection to the internet. This is what is called a shaped service, if you go over the 5GB limit in a month the service slows but does not stop.

4. This is a joint U3A Network and U3A Kyneton initiative with the bulk of the funding being provided by Network.
5. This policy may be amended at any time.
6. Application for loan of the device can be made via U-MAS courses.

Management

7. The U3A Kyneton Technology Manager is responsible for all aspects of this initiative and the development, management, and implementation of associated policies and agreements.
8. Members borrowing the device will be given instruction in its use.
9. Any applications or data downloaded to the device are the members responsibility and will be deleted at the end of the loan period.

Conditions

10. The member must agree to the terms of the loan set out in this policy.
11. The loan is for 4 weeks but may be extended with the approval of the Technology Officer.
12. A \$10.00 charge is payable per 4 weeks of loan, this is to cover costs incurred to U3A Kyneton.
13. The device is intended for loan to as many members as practical so members must not put personal information on the device particularly account names, pin numbers and passwords. Further, U3A Kyneton has no liability for personal information left on the device falling into the public domain.
14. The device may be withdrawn at any time at the direction of the Technology Officer.
15. The device must not be used for illegal or unsavoury purposes and its use is to comply with **all U3K Kyneton's and U3A Network's policies.**

27 – Not Used

28 – Not Used

29 – U3A Mobile Phone Policy

Introduction

1. U3A Kyneton funds a mobile phone number 0439 360 763, this is our official contact number and used on all correspondence, flyers, and the web site. The advantage is we can keep the same number regardless as to has custody of it.

Purpose

2. The purpose of this policy is to set out the procedures on the use of the U3A phone.
3. Due to the plan, we are on it should not be used for outgoing calls. In fact, its only purpose in life is to divert calls to another phone number.
4. The phone is not intended to be passed from one committee member to another, rather it should remain in static location and the number 'call forwarded' to the current committee member responsible for managing call at that time.
5. The important issue is that the number is diverted to a committee member who can take the call on a reliable basis in normal hours 0800 – 2000 daily.

Procedures

6. To call forward, the phone custodian (notionally the Technology Officer) is to enter the following code on the handset:
7. To cancel the existing call forwarding:
 - ##002# then press send
8. To set up a new call forwarding:
 - **21*(phone number to forward call to including area code) *10# then press send.

Responsibilities

9. The Technology Officer is responsible for the management of this Policy/Procedure.

30 – Code RED Days

Introduction

1. Each day, the Bureau of Meteorology provides a Fire Danger Rating for each weather district in Victoria. You can find out what weather district you're in and what the Fire Danger Ratings mean by visiting cfa.vic.gov.au Code Red (and Catastrophic in other Australian states) is the highest level of rating in Victoria, and it signifies the worst conditions for grassfires or bushfires.
2. Kyneton is in the Central District of Victoria.
3. A Code Red Fire Danger Rating means that if a fire were to start:
 - It will be uncontrollable, unpredictable, and fast moving,
 - Fire services will find it difficult to put out,
 - There is a high likelihood that people in the path of a fire will be killed or seriously injured,
 - Homes are not designed or constructed to withstand in these conditions - even the best prepared homes will not be safe,
 - Leaving high risk bushfire areas, the night before a Code Red Day or early in the morning of a Code Red Day is the safest option for your survival – do not wait and seeConditions will also be extremely hot and windy and you need to take care of yourself in the heat.
4. For more information see:
 - How can I stay healthy in the heat?
 - There is also an increased risk of power outages on Code Red days.
 - Extreme weather and fires have the potential to damage or destroy electricity infrastructure, which may disrupt power supplies to your area.
